* A yarn must be selected in thread pattern editor. The thread pattern repeat must be ≥ 10

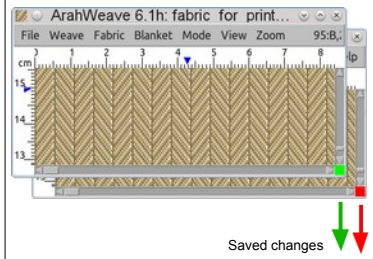
** Area must be selected in weave editor

ArahWeave 9

Keyboard shortcuts

Fabric save status

Left click on red / green square closes all windows



Ruler in fabric simulation

Left mouse button	Moves the ruler starting point
Right mouse button	Positions cursor on specific yarn in Thread pattern editor
Click on unit switches between cm/inch and threads	

Thread pattern editor
Denting in weave editor
Regulator in weave editor

Enter — The selected yarn blinks in the fabric simulation

Works inside repeat. Move fabric to bottom left

Move view, selection or selected object

Move up	Move down
Move left	Move right
Up one page (Page up)	Move bottom left (Home)
Down one page (Page down)	Move bottom right (End)

Drafting in Weave editor

Shift

Left click	Copy card to weave	Split shaft in two
Right click	Delete drafting	
Middle click	Copy weave to card	
Drag down	Move shaft	
Drag right	Draw straight drafting

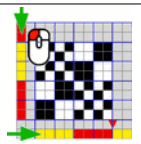
(	Double weave size (or selection) in warp	Multiply x 2 in warp	Delete warps in selection	
)	Double weave size (or selection) in weft	Multiply x 2 in weft	Delete wefts in selection	
,	Magic weave correction			
.	Dobby view on/off			
!	Regulator view on/off			
<	Optimize number of shafts			
>	Suggest shaft merge			
Space	Invert weave			
Left click	Black weave point*	Paste part of weave		Make selection (with dragging)
Right click	White weave point			
Middle click	Make selection (with dragging)			

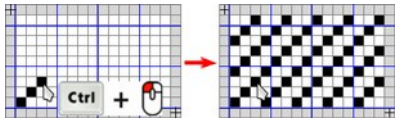
* Drawing with selection

Editing thread pattern in editor's thread pattern row or column with mouse

A warp or weft thread to draw with has to be selected in Edit thread pattern or Yarns or Edit colors window. To replace consecutive threads of same color with another color, use CTRL+click.



Repeating a weave across all editor's area with Ctrl + left click



Control row and col

		Ctrl	Alt	Shift
Left click	Duplicate row / column	Insert black row/column	Insert negative row/column	Insert empty row/column
Right click	Delete row / column			
Middle click	Resize to row / column			

Jacquard conversion

		Ctrl	Alt
1	Load default weave – cut*		
2	Load plain weave*		Multiply weave x 2*
3	Load twill weave*		Multiply weave x 3*
4	Load broken twill weave*		Multiply weave x 4*
5	Load satin 5 weave*		Multiply weave x 5*
6	Load satin 6 weave*		Multiply weave x 6*
7	Load satin 7 weave*		Multiply weave x 7*
8	Load satin 8 weave*		Multiply weave x 8*
9	Load satin 9 weave*		Multiply weave x 9*
0	Load default weave – miss*	Fit to window	Multiply weave x 10*
